

For adults, whatever the job is performing for the children, the game refers to it. It has been observed that children who play games are more successful all their lives. It has been observed that children are more careful, focused on the subject, make quick decisions, have a sense of competition, are confident and are more social when playing games. Music is an integral part of the game. If there is a rhythm in the beating of our hearts, we said that music is everywhere, integrated the game with music and made it the subject of our project.

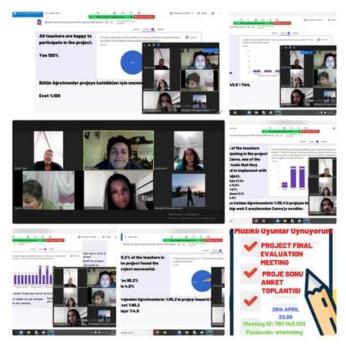

To contribute to the spare time of our students participating in eTwinning projects by having fun and learning, with music and games. To inform about safe internet use. To develop creative intelligence by making a musical instrument. To complete our project by carrying out various studies and collaborative activities in order to contribute to personal development by developing a sense of rhythm in music.

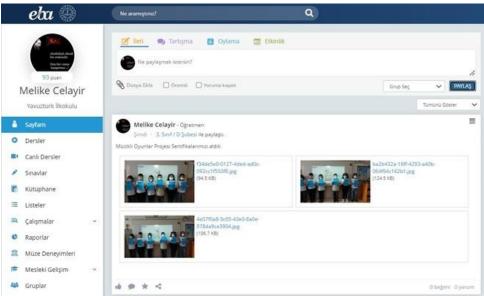

eTwinning projelerine katılan öğrencilerimizin boş zamanlarını eğlenerek ve öğrenerek müzik ve oyun ile katkı sağlamak. Güvenli internet kullanımı konusunda bilgilendirmek..Bir müzik aleti yaparak yaratıcı zekasını geliştirmek. Müzikte ritim duygusu geliştirerek bireysel gelişimine katkı sağlamak amacıyla çeşitli çalışmalar ve işbirlikçi etkinlikler yaparak projemizi tamamlamak.
